For your Information, Neighborhood Project

Recently the HOA Board decided to install an irrigation system around the common areas at the pool and tennis courts. This system will expand upon the existing system along 96th Street to protect and beautify the landscaping at the front of the neighborhood. A new system will provide water to the landscaping around the pool area.

A project of this size will require the expenditure of funds from the reserve in order to accomplish installation of this new system this year. The board has a plan to replace the funds into the reserve within a few years by adjusting items within the annual budget.

If you have any questions or concerns regarding this project, please contact one of the board members or send an email, willowbrookehoa@gmail.com.
